

SOCKET-X

„Just plug in“

How to create an ELEMENT ONE design-matching connector box? The answer is the unique SOCKET-X:

It is available in **three different length** and most versatile in terms of available sockets and interfaces for Audio, Video, Power, Ethernet and data. Simply make your choice.

The surface matches to your ELEMENT ONE monitor and microphone installation. It is available in **countless materials, colors and coatings** - and beautiful illuminated by the built-in LED light.

The SOCKET-X is equipped with an innovative magnetical multipart cover flap with integrated cable outlet.

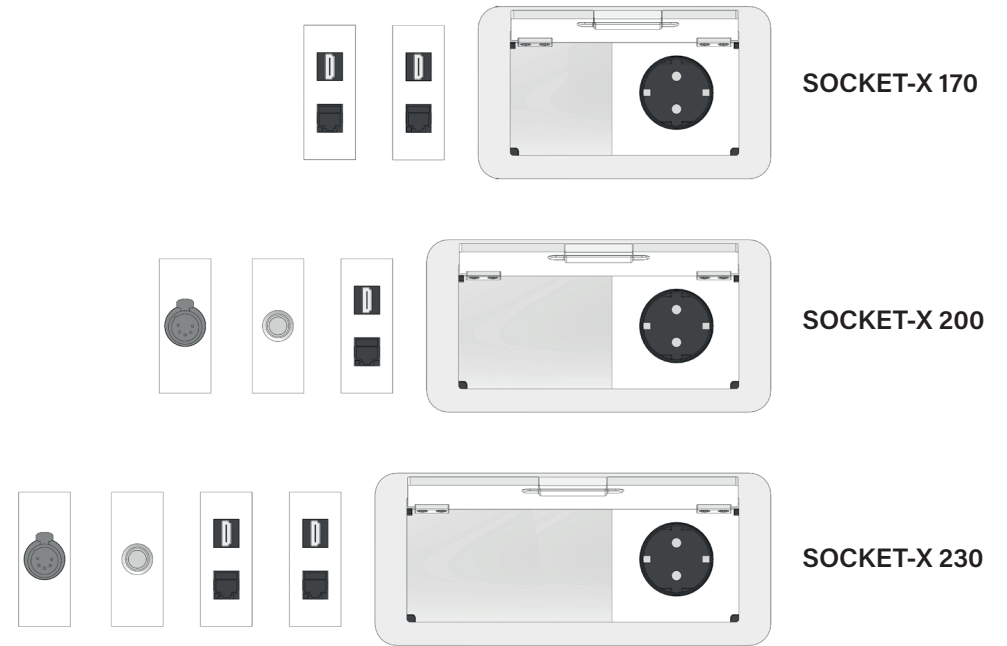

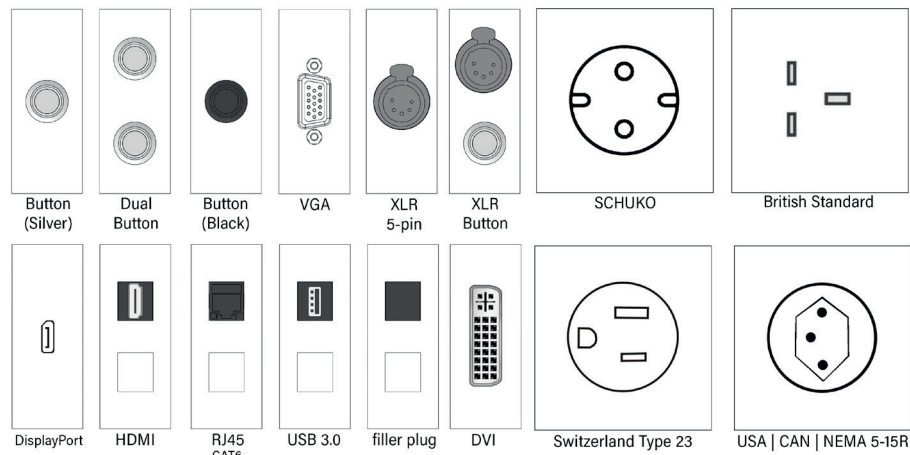

The major advantage is the **compact dimension**. With its total (visible) width of only 100mm and an installation depth of max. 75mm the required space of the box is reduced to the minimum.

- Available in 3 different sizes
- Width of SOCKET-X = Width of ELEMENT ONE CONVERS (100 mm)
Also available as integrated, seamless CONVERS-SOCKET-X unit
- Modular Socket Elements
- Aluminum or stainless (option) closure flap
- Magnetic Lock to open/close flap and for easy wiring
- Plastic frame for complete electrical decoupling of the components.
- LED Illumination (optional).
- LowProfileDesign
- Compact Housing Dimensions
- sustainable materials: Used Plastics are bio-degradable and food safe
- Maintenance free
- 5 years limited warranty
