

FUTURA mini BLOCK

818.02

peso: 165 g

certificazioni:

EN 567 $\varnothing 8 \div 12$ mm

EN 12278 $\varnothing 8 \div 12$ mm

Carrucola a basso attrito con bloccante inseribile e disinseribile tramite cricchetto, compatta e leggera concepita per alpinismo e soccorso.

E' adatta nel recupero di materiali in parete e diventa fondamentale nell'allestimento di paranchi semplici o doppi da soccorso ed autosoccorso.

MINIBLOCK fa parte della famiglia di bloccanti ultracompati "Futura" di cui conserva la geometria e alcuni particolari. Può essere utilizzato anche in caso di emergenza come bloccante per la risalita.

FUTURA mini BLOCK

818.02

weight: 165 g

certifications:

EN 567 $\varnothing 8 \div 12$ mm

EN 12278 $\varnothing 8 \div 12$ mm

Low friction ball bearing pulley fitted with a locking device that can be insert and disconnect through the special pawl; compact and light it is conceived both for mountaineering and rescue.

Properly used in the recovery of materials in wall, it becomes fundamental for the preparation of simple or double hoists for rescue and self-rescue.

It also can be used in case of emergency as belay device for climbing.

MINIBLOCK belongs to the family of ultra compact lockers called FUTURA, which preserves the geometry and the main advantages of lightness and compactness

FUTURA mini BLOCK

818.02

Poids: 165 g

Certifications:

EN 567 $\varnothing 8 \div 12$ mm

EN 12278 $\varnothing 8 \div 12$ mm

Poulie bloqueur avec roulement à bille à faible friction que l'on installe et désinstalle à l'aide d'une came de blocage. Conçue pour l'alpinisme et le secours, cette nouvelle poulie est compacte et très légère. Elle est conseillée pour des opérations de récupération de matériels en paroi et devient fondamentale pour des systèmes de mouflage simple et double destinés au sauvetage et à l'auto-sauvetage.

MINIBLOCK fait partie de la famille des bloqueurs ultra compacts « FUTURA » conservant la géométrie ainsi que quelques autres particularités. Elle peut également être utilisée en cas d'urgence, comme bloqueur pour la remontée sur corde.
